REQUEST FOR RECONSIDERATION/OTHER

Continuation of 11. does NOT place the application in condition for allowance because: The examiner has review the applicant's "Request for Reconsideration'. The 39 LSUS § 112 directed toward claim 22 has been overcome by applicant's amendine to claims The examiner contends that the amended claims do not overcome the 35 USC § 103 rejection. Santoro (PGPub Document No. 20030020671) teaches that Together, the grid and tiles comprise the application through which a user can view simultaneously information from a multitude of available sources including multiple sites on the Internet or some other distributed computer network, receive signals from multiple broadcast channels, and open and view multiple files. In its initial embodiment, the application way be run through conventional computer operating systems, whereupon it overlays the user's desklop and acts as if it were a "borderless browser". Therefore the application resides over existing applications without replacing any of them; rather it enables them to be called from the grid itself. The application, therefore, becomes a graphical file manager in which the content of continuously changing files, e.g., datastreams, is being displayed in real-time or near real-time, depending on the assigned priority. Effectively, the application can be used instead of the user's computer 'desktop' because it has a more visually institute dynamic menuing system than a traditional desktop. (1921) Further, eithe has a priority leves are user modifiable or automatically assigned ((21, lines 16-21) [64] [85] [89] [101] [112] [166]). As such, the claim limits are taught by the prior and of record's
